

Life 2.0 at St. Peter's

Advent Workshop

Activity Guidelines

All LIFE 2.0 activities are designed for families and individuals to move independently through each station. General guidelines are listed below, but you are encouraged to make the activity meaningful to you and your experience. Feel free to interact with others at the table, as fellowship is one of our goals, but we ask adults at the table to help keep the younger participants focused as much as possible.

Minecraft

Let's join in on Minecraft to build a few scenes from our Advent stories. Be creative, but cooperative! Some ideas:

- A St. Nicholas scene
- A manger scene
- The Three Kings traveling towards the star
- Shepherds in the field
- The angel appearing to Mary (or the shepherds!)

Have fun, but be helpful, kind, and stay focused on what we're doing!

Email photos to formation@stpetersfreehold.org and check out our website at www.stpetersfreehold.org/faith-at-church

Questions to Consider:

- Which is your favorite part of the Advent and Christmas story?
- Why did you work on the scene you did?
- What are some important elements that you included?
- How does seeing this familiar story in a different way impact you?
- What other scenes from the Bible could you recreate in Minecraft?
